

Tow Bars

Quality Towing Systems since 1974

6,000 lb. weight capacity motorhome-mounted tow bar

- The use of stainless steel in virtually every moving component allows for smooth, trouble-free operation, and prevents corrosion that binds.
- Autowlok locking mechanism – allows both tow bar arms to extend or retract for a quick connection. Then, as you drive away, the arms self-center and automatically lock.
- A patented latching mechanism ensures secure, easy storage on the back of your motorhome.
- One-person quick connect and disconnect – thanks to ROADMASTER's self-supporting "quick-disconnects," one person can easily connect or disconnect the Falcon 2 in seconds.
- Full-length, steel crossbar reinforced for maximum support and safety.
- A lustrous, high-tech powder coat finish for maximum durability.

Made in the USA

Falcon 2 Stowed

In the folded position, the Falcon 2 conveniently stores out of the way on the back of your motorhome. A tow bar cover (see pg. 13) keeps your tow bar clean.

Autowlok™ System

Stainless steel arms and Autowlok System for smoother and easier hookups and disconnects.

U.S. Patent No. 6,619,686

Patented Storage Latch

The patented Storage Latch makes storing the Falcon 2 tow bar a snap! Simply fold the tow bar toward the motorhome and it will "click," automatically locking in place.
