

# SPRAY-IN BEDLINERS

**TURBO LINER Spray-In Bed Liner offers the BEST AVAILABLE PROTECTION for your vehicle. There are several advantages to Turbo Liner over every other type of bed liner available:**

- ▶ Surface is dry after 10 seconds and installation only takes about 2 hours
- ▶ Greater UV stability
- ▶ Tougher surface is dent and scratch resistant (no cracking)
- ▶ Textured surface prevents load slippage
- ▶ Prevents rust and corrosion
- ▶ Increases your vehicle's resale value
- ▶ Theft-proof
- ▶ Higher temperature range (-100° F to +350° F)
- ▶ Factory-like finish with clean, smooth edges

**TurboLiner**  
**FASTER**  
**TOUGHER**  
**BETTER**

*Turbo Liner is a high pressure, heated application using Polyurea Technology for the best protection you can get in a bed liner. Faster, tougher and better than the competition.*
